APPROVAL OF STATE ENGINEER

This is to certify I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 22029, Certificate 7777 is issued subject to the terms and conditions imposed in said Permit 22029, Certificate 7777 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Permit 52018 and 52019 will be limited to the irrigation of 54.59 acres of land within the described place of use and limited to a combined duty of water not to exceed 215.55 acre-feet seasonally.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.61 cubic feet per second, but not to exceed a seasonal duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources and not to exceed 143.16 acre-feet.

Work must be prosecuted with reasonable diligence and be completed on or before August 26, 1990

Proof of completion of work shall be filed before September 26, 1990

Application of water to beneficial use shall be made on or before August 26, 1993

Proof of the application of water to beneficial use shall be filed on or before September 26, 1993
